About Us

Mint is an Australian company that helps companies of all sizes transact in more rewarding ways - whenever, wherever and however the world wants to pay.

We believe every transaction your business makes should add value for you and your customers. Whether that's through products that save space and time, transaction fees that decrease as your business grows, tailored industry products or exclusive partnerships including Velocity Frequent Flyer that reward you for just doing business.

*Minimum \$2,000 transacted/month

What Our Clients Say

Mint makes processing payments so easy for us. It gives our customers flexibility when it comes to payments. The sign up and approval process was seamless, especially that no bond was required. We now earn Velocity Points when customers transact on our terminals.

Fiona | Helloworld Toowoomba

Mint makes processing payments easy by integrating with my system, giving me more time to focus on my business. Plus everyday I am earning Velocity Points towards my yearly holiday!

Lisa | Mudgee Bakery

We have been using Mint for over 5 years and they are amazing. Mint charge a low flat fee for EFTPOS purchases whereas other companies such as Square charge around 2% of sale value for all sales, saving us money every transaction.

Margaret | Abfabco
